

## SUBJECT COMPREHENSION ASSESSMENT

Person obtaining consent:

The Principal Investigator or research study personnel certifies that he or she has described the research and discussed the consent document, in addition to employing the Teach Back method to assess that the participants has a least a basic understanding of what the research involves:

- Tell me in your own words what this study is all about
- Tell me what you think will happen to you in this study
- What do you expect to gain by taking part in this research?
- What risks might you experience by participating in the research?

The participant stated back, in his/her words, the above information  YES

Exceptions to the above should be noted here :
